- A quick budget update based on our fall adjustment for this school year, some staffing updates, our title one which we are compliant in. When we got our numbers back for our fall adjustment, on September 12th at five o'clock. We had an enrollment of 140 students Which was great. I know I said that our projected number was 150. and even though we did have 140 on September 12th, that number was really good.
- Currently, we are not in a situation where we have to rib any staff members, and we'll get to that when we talk a little bit about our enrollment for this year. The CSC recommends to the principal and consultation with the teachers affected and equitable distribution of resources in the proposed budget.
- Ms. Williams talked about the MLE. The multilingual education programs are at specific schools that have students that speak multiple languages. There are certain schools that have the teaching model which provide language support. There are specific instructional strategies that our teachers use during classes every day, and they receive the training from the district.

Next Steps:
